**MANUFACTURER
FROM POLAND
OF THE
PLASTICS
INDUSTRY**

**WE ARE PLEASED TO PRESENT YOU OUR PRODUCT
CATALOGUE.**

KON-PLAST GROUP is a manufacturing and servicing company offering plastic products. Our market experience is 32 years. We have been offering POS products for a couple of years as the market leader. Customers can expect from us quality in every detail, short production periods and competitive prices. The development of our offer and investment in modern machinery and new molds are our priorities.

We have our own and exclusive design office allowing us to create your product from the design up to manufacturing phase. Our machinery stock includes lines for profiles extrusion and injection molders with closing force ranging from 20 to 4000 tonnes.

A significant part of our production is equipment for store interiors: price profiles, shopping baskets, shelf dividers and many other products allowing you to display your merchandise in an appealing way. Our production facility is located at the logistic center of Poland, near the A2 highway.

I invite you to browse our product offer and contact us to discuss details of cooperation.

Yours truly,

Henryk Kamiński

Founder and President of Kon-Plast Group

ABOUT US

- KON-PLAST Group is a manufacturing and servicing company offering plastic products, founded in year 1992. Major part of our production is equipment for store interiors: price strips, advertisement strips, price tag plates, shopping baskets, poster frames of various dimensions, shelf dividers for merchandise and other accessories.
- Thirty two years of experience combined with a modern, large facility and high production output allowed us to gain a number of satisfied customers. Utmost care for labor conditions, quality and timely performance of our orders has granted our company the following awards:

DESIGN OFFICE AND TOOL ROOM

We perform orders beginning from the concept, visualization stage up to execution and manufacturing. We operate our exclusive design office running on hi-end software (CAD/CAM - VISI Series) and possess our own tool room. We design injection moulds, heads, calibrators.

MACHINERY STOCK

We have injectors and extruders department:

- Our injectors department is equipped with injectors of closing force 20 - 4000t and injection basis weight up to 50 kg.
- The extruders department is equipped with production lines of 120 kg/h output.
- The co-extruders feature all lines allowing to produce profiles of various hardness and colours.

MISSION

IT IS PARTICULARLY IMPORTANT FOR US TO MEET OUR CLIENTS' EXPECTATIONS, BE UP TO DATE WITH THE EUROPEAN MARKET AND BE ABLE TO OFFER THE BEST PRODUCTS AT THE HIGHEST QUALITY LEVEL.

OWZ ALUMINUM SNAP FRAME

OWZ aluminum frames (open-insert-close type) are appreciated especially in situations where quick and easy replacement of advertisement materials is necessary. They are known for their sturdiness and very aesthetic appearance. Anti-reflections film is applied to OWZ frames, ensuring excellent protection of posters and banners from solar radiation.

DESIGN:

- Anodized aluminum profile of 25 mm width
- Anti-reflection UV film (protection of poster from solar radiation)
- Frame back - plastic plate (Hips plate)
- Ready holes or hangers for hanging on a wall
- Angles cut at 45 degrees or semicircular
